

Ceremonies for Sacred Living

Building bridges from where
you are to what you envision

What we offer:

It is our intention to bring meaningful ritual into all of life's transitional moments, honoring the celebrations and challenges of the individual, community, family and Spirit. We provide a starting point in the form of "templates" for the type of ritual to be created, and then customize the ritual with you. You are an equal partner in this creation; we provide experience and support for your ritual dream and vision. No matter what your particular religious or spiritual beliefs, we can help you to incorporate them into your ceremony to the depth you choose. Use our space at The StarHouse or your Sacred space, wherever that may be.

Ceremonies for Sacred Living can assist you in bringing ritual into your life.
